Fine Rain Over County

Wheat for '43 Gets Started

Splendid Fall Season With Plenty of Warm Weather; Moisture for Feed, Wheat

Rain in Canyon Friday night amounted to 2.30 inches. Every part of the Panhandle was well soaked by this rain, although the amount varied in different sections. While all parts of Randall county received abundant rain, some sections received more than 3½ inches.

The rain came at exactly the right time for the farmers. Most of the wheat had been planted, and this rain will give the wheat an excellent fall start. Fields are already green as the result of the splendid moisture.

"It looks like Randall county wheat farmers were starting the third good wheat crop in a row," stated a prominent farmer yesterday. Conditions could hardly be more favorable for wheat than it is right now.

Moderate weather followed the rain. At this time of the year it could be expected that a freeze would follow a big rain. However, the temperature has been high this week, with clear, sun shiny days ever since the rain.

Farmers are harvesting another surprise crop, since the row crop has developed into one of the best in recent years. There is an abundance of feed in all parts of the county. If a killing freeze is postponed for a few weeks, this crop will make a lot of grain.

12 Men Leave and Others Volunteer for Armed Service

Twelve men left Tuesday for Fort Sill to start their military training in the army. Those leaving were: William Cass Harter, Rayford Turner Louder, John Luther Bewley, Earl Lee Sanders, Caffred Cloys Knox, Thomas Loys Knox.

Marvin Leroy Shero, John Louis Wiek, Ernest Erlwin Phillips, Milton Wayne Turley, Paul Franklin Black, Mauro Ignio Hernandez.

The following men have volunteered during the past week:

Elwood Sanborn Shero, air corps specialist.

Jesse French Thomas, air corps specialist.

John Leonard Norman, marine corps.

Harvey Marks Rodey, Jr., army.

Harold Glenn McKee has joined the navy.

Emmett Sanders, who has been working at the office of County Clerk A. B. Holt has joined the navy and is now at the Great Lakes Navy Training Station.

Four men have been called for Oct. 17 and 21 men on Oct. 30.

Bring Old Keys to News Office For War Work

Have you any old keys around your office or home?

Most every household can dig up a bunch of keys which no longer are useful.

Bring them to the News office at once, and we will mail them to Fulton Lewis, Jr., in Washington, D. C. to add to his collection of keys for the war.

Keys contain a large per cent of nickel. This metal is very scarce, and is needed in many kinds of war work.

M. C. Sanders was the first person in Canyon to mail a bunch of keys to Mr. Lewis.

The News will handle this job from now on if you will bring in your old keys.

Contributions Made To Cemetery Fund

The following contributions have been received for the Dreamland Cemetery Association fund:

Mrs. Mattie Dunaway \$5; Mrs. W. S. Myers \$1; Harvey Cash \$1; Mrs. W. A. Jennings, Sr. \$1.

Mr. and Mrs. N. E. Root have returned from Sparland, Ill., where they have spent several months with their children. Mrs. Root's health has greatly improved.

T. B. Tests Will Be Made of Dairy Herds

Members of Dairymen's Association Will Join Making Test Latter Part October

The members of the Randall County Dairymen's Association met at the County Agent's office Tuesday night. The principal business at this meeting was to consider the T. B. testing of the herds owned by the members. The annual test was postponed the last two years on account of Randall County being a Federal Accredited Area and entirely free from bovine tuberculosis. Since the time limit for this extension of time of testing has expired a complete test is required by the Health Department of those holding Grade A permits.

Members of the association will pool their herds and contract a competent veterinarian to do the testing some time around the end of October.

The testing committee will not be able to call on all the dairy herd owners on account of a tire shortage. They will expect those who want their cows tested to list them with the testing committee or at the County Agent's office.

Members of the committee are Albert Byars, Earl Burtz, Jim Bible and Albert Brown.

4-H Pig Club Has Gilt Show Here Saturday

The Randall County 4-H Pig Club boys held their annual gilt show at Canyon Saturday, Oct. 3. Sixteen members were on hand promptly at 3 p. m., the hour set for the judging to start. Nine boys exhibited their pigs. Seven of these were in the regular competition for prizes in the first year class. First prize in this class went to Kenneth Smith. Second place to Meade Michael, third Richmond Hales, four Lee Roy Bauer, fifth James Bible, sixth William Vorwald, and seventh to Richard Beckman.

The top premium in this class is a registered Jersey heifer which will be awarded to Kenneth Smith on Saturday, Oct. 10 at the District pig show in Amarillo. Melvin Smith won the County Agent's special prize of \$5.00 for the best second generation gilt owned by a 4-H boy. Roger Dugan exhibited the pig club boar and was complimented very highly by Mr. Brumley of Hereford, who judged the show.

Judge, who was assisted by County Agent A. R. Bateman of Deaf Smith County told the boys that they had done a very fine job with their pigs this year. They were told that this year's gilts on the whole were in better shape and better grown out than most of the other County groups in the district. Several of the boys will attend the District pig show in Amarillo Saturday.

Members of the 4-H pig club own a total of over 100 pure bred spotted Poland China hogs. These breeding hogs are in addition to the regular farm herds of grade hogs with which these boys are doing their part.

The pig club boys are also doing their part for Uncle Sam by buying an average of \$38.50 worth of War Bonds and Stamps with the profits from their food production projects.

2838 Pounds to Farm Boy Scrap Is Turned In

The farm boys of Randall County are doing their part in the scrap iron harvest. Accurate data assembled by County Agent W. H. Upchurch for twenty-four farms on which 28 small boys (10 to 16 years of age) reveal that an average of 2838 pounds of scrap metal per boy (not per farm) has been marketed since the scrap iron drive started. On several of these farms the boys did all the work of collecting and hauling of the scrap to market.

Farm Machines Are Rationed by New Committee

The Randall County Farm Machinery Rationing Committee was organized and held its first meeting at the County Agent's office Monday. The committee as finally approved in the State office is composed of R. B. Gist, chairman, L. D. Winn and Henry F. Ratjen. W. E. Bennett and Wilson Campbell are alternate members.

Certificates to purchase new farm machinery were approved for the following:

J. Paul Craig, general purpose tractor.

Foster Bros., tractor bought before Sept. 17 but not yet delivered. The time and place of meetings of the committee will be, for the present, each Saturday at 2 p. m. in the County Agent's office.

Legion and Unit to Have Supper Monday

A covered dish supper will be given Monday evening at 7:30 o'clock at the Legion Hall for all members of the Palo Duro Post and Unit members, and their families.

The monthly meeting of the Post will be held following the supper.

Lieut. Ruth Brown of Fort Sill, spent the week-end at the home of her aunt, Mrs. L. M. Cousins. Lieut. Brown is a nurse in the army.

Dedicated to a Great Cause

On this final day of the Third Annual Newspaper Week, our readers are again reminded that this newspaper is dedicated to the cause of the Four Great Freedoms as set out by the United Nations. So long as the press of America remains free, the nations will enjoy freedom. When the press is subjected to the rule of a dictator, freedom vanishes. The free press of America is dedicated to the final victory over dictators in every part of the world.

Albuquerque Club May Topple Bufs Friday; Nicklaus Is Impressed

Assistant Coach W. W. Nicklaus returned from a week-end scouting tour to announce that West Texas State now faces two of the strongest offensive clubs in the Southwest in successive weeks.

On Friday evening, the Bufs will play the Albuquerque Air Base—an eleven which, according to Nicklaus, has the most varied offense he has ever seen. The lineup is scattered across the field on some formations, and the "T" system is in full bloom on others.

Soldiers May Vote General Election Nov. 3

Soldiers from Randall county who paid their poll taxes before the first of February may vote in the General Election of Nov. 3. Application must be made for an absentee ballot to County Clerk A. B. Holt. Absentee voting will start Oct. 14.

Under the new federal law, soldiers who have not paid their poll tax may vote in Texas only for federal officers. This includes only the candidates for United States Senator and for Congressmen. Separate ballots will be provided for these voters and the ballots will not include county, state and precinct candidates.

The election in Canyon will be held at the Red Cross room instead of the court house. The two primary elections were held in this room, which is much larger and more satisfactory for the judges holding the election.

The Ballot will contain the five constitutional amendments which are submitted to the voters in this election.

Beautiful Flowers Given News Office

Miss Jessie DeGraffenried presented the News office with a beautiful bouquet of Iris yesterday afternoon. She stated that she had some forty different varieties of fall blooming iris.

Mr. and Mrs. A. T. Scott and Mr. and Mrs. Lee Scott and family spent Sunday with Mr. and Mrs. F. M. Brazil.

Women Are Taking Place of Hiway Men

Two Women Are Employed on Road in Precinct 4 Taking Places of Men on the Job

Women are taking the place of men in Randall county in many capacities. Many trucks and tractors have been operated regularly throughout harvest by women.

County Commissioner Calvin Casey has added two women to his road building crew, and they are taking the places which were formerly filled by men.

Mrs. C. W. Wineinger and Mrs. Frank Simon have been on the road construction job for three weeks as timekeeper and spotter for trucks hauling caliche to the road.

Frank Simon is foreman on the construction job, and several Canyon men are employed on this job.

Mr. Casey is running a caliche base seven miles south of highway 87, which is an extension of Washington Street in South Amarillo. The caliche will come to precinct No. 1.

J. A. Harris is one of the men from Canyon on the job, and says that the work is progressing rapidly. He is high in his praise of the two women who are working daily with the crew of men on this construction.

Two Employees of City Are Named at Monday Meet

At the monthly meeting of the City Commission Monday night, two new employees of the city were elected.

Jack Parsons was named night watchman to take the place of Jim Cheyne, who was recently promoted to chief of police.

W. A. McCarter was elected street man to take the place made vacant by the resignation of Frank Hicks.

The clean up campaign of the city is going forward as rapidly as the City Commission can get over the town with the trucks.

HAD OPERATION

Mrs. M. E. Cantrell underwent an operation at an Amarillo hospital Monday morning. She is recovering in a satisfactory manner.

Mrs. Arnie Stelzer and Misses Evelyn and Ruth Saks of Hereford spent Sunday with Miss Mabel Schmitz.

First Carload Goes Out Friday

Metal Scrap Is Coming in Daily as Farmers and the School Children Work on Job

The junk pile is growing every day.

The first carload of scrap iron will be shipped tomorrow, according to Jeff Wallace, who is buying the junk at the Consumers Fuel Association.

More than 180,000 pounds of junk have been delivered to the scrap pile, states Mr. Wallace.

This week the school children are working on scrap. Most of the children are taking their scrap metals to the schools and in a few days this will be hauled up to the junk pile.

Many farmers were in town Saturday with loads of scrap iron, stated Mr. Wallace. "Whenever it rains we always have a large amount of scrap delivered," stated Mr. Wallace.

There is a large amount of work to be done in preparing this scrap for shipment. The metal must be divided into grades and cut into proper lengths to handle in the melting furnaces. A. A. Kirkpatrick has a crew of men preparing the metal for shipment.

Copper, brass and other valuable metals are separated from the scrap iron and tin and must be hauled to a junk dealer in Amarillo since there is not enough here to make a car shipment.

Several boys have located old tractors and other farm machines which they are wrecking for delivery to the salvage pile.

The good work must go on, urges federal authorities, and every Randall county citizen is urged to do his best in making this junk campaign 100% complete when it comes to gathering all of the metal of the country.

Postoffice Goes to New Time on Next Thursday

Starting next Thursday morning, Oct. 15, the postoffice will not open until 9 o'clock, according to announcement by Postmaster Guy Harp.

This time was authorized last year when the days became so short that all lights in the postoffice had to be burned in the morning as the first mail was being put up.

Several business houses are opening now at 8:30 o'clock in the morning, but it is likely that all business houses will change to the 9 o'clock opening time before the first of November.

New Minister of Lutheran Church Visited in City

Rev. Martin Hartenberger has recently become minister of the Trinity Lutheran Church in Amarillo. This church is attended by all members of this church who live east of Canyon. The church in Palo Duro community was discontinued last year with the congregation joining in worship with the Amarillo church.

Rev. Hartenberger recently moved here from Fort Wayne, Indiana. He has visited in Canyon during the past week in order to become acquainted with the people of this community.

"I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation indivisible, with liberty and justice for all."

Stalin has made it clear that the Russians are dissatisfied with the support the United Nations are giving his hard pressed nation. The Russians have battled the German hordes almost to a standstill, in spite of the vast superiority of the invaders. Russia is asking for a second front. The people of England are holding mass meetings demanding a second front. These people know that if Russia falls the entire strength of Hitler will be thrown against England. It is not a pretty picture. America is just getting into the fight. Like England, we have our forces scattered over the face of the globe. Our supply lines are long, and our shipping facilities are too weak for the job at hand. It is now pretty certain that Russia will be able to hold out this winter. While all of us agree that Germany cannot be whipped until a second, or third, or fourth front is opened, yet the horrible fact confronts us that thousands of men will be killed when these other fronts are opened, and untold tons of supplies will be needed to keep our forces in operation. Merely crying out for a second front will not get men and supplies to the strategic posts and will not win battles after they reach the battle front. The commando raid into France cost more than it was worth, and a few such defeats would badly upset the morale of the United Nations.

Daily prayer is being observed in many towns throughout the nation. These prayer services are usually held in the business district. The idea is to have every citizen stop for a few minutes and offer up a prayer for our men who are fighting to preserve liberty in this nation. Even in Germany there is said to be a revival of religion in spite of the efforts of Hitler to supplant God and place himself on the throne to be worshiped by all loyal Germans. When Hitler pitted political power against the religions of the

people he overestimated his strength and underestimated the abiding power of religion in the lives of people. People of the Rhineland provinces of Germany are predominantly Catholic and prefer a republic dominated by the Pope. The Protestant church was a vital force in other parts of Germany. Hitler can't whip out Martin Luther. The Jewish people have survived all manners of persecution and their religion has been their great bulwark. Hess, the great theologian from Switzerland, left footprints which the leader of the Third Reich felt necessary to erase before he could send the German people on the path of wanton disregard of humanity and of the abiding things of civilization. This revival of religion in Germany is portentous to Berchtesgaden.

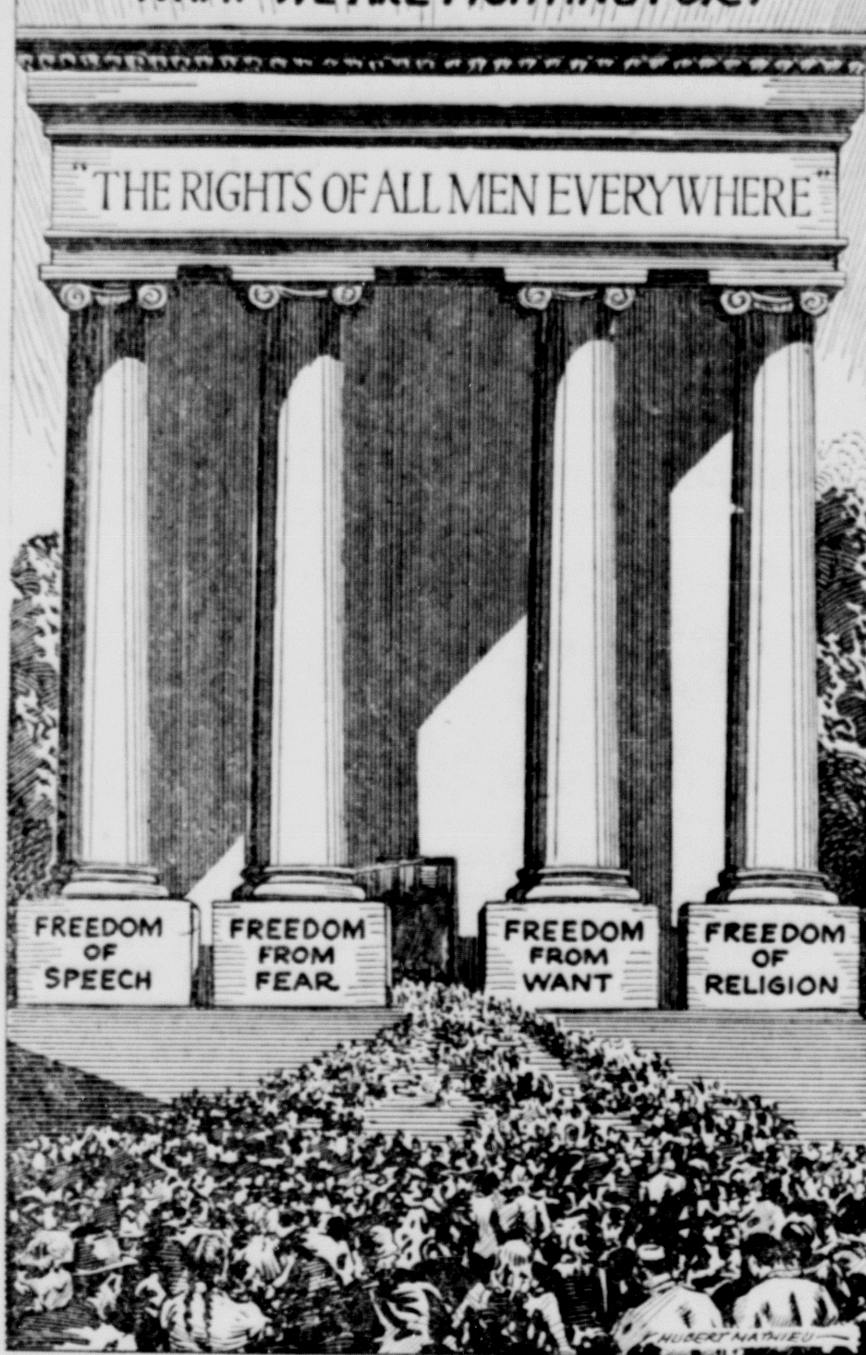

The fight against liquor is increasing over the nation. Drinking among soldiers is the cause of the effort to outlaw liquor around army camps. Whether or not there is more drinking now than in 1917-18 when national prohibition was adopted is hard to say. Our effort to eliminate liquor by law was not a success. Whether it would succeed again is a matter of speculation. We fear that national prohibition, if adopted again, would fail as a war-time measure. Everyone wants to do all that he can to win the war, but too many people are unwilling to give up their liquor even during war. Americans prize dearly our so-called personal liberties—which means generally our personal code of ethics. A return to legalized liquor has not solved our national problems, as many leaders tried to tell us. As we view it, the only force in America that will effectively outlaw liquor is the public schools. You cannot change the habits of the oldsters, but you can formulate life-long habits of people by starting them in the right direction in schools.

President Roosevelt made a sweep across the nation to visit the vital war plants. He wanted to see for himself just what was going on in all parts of the nation. His trip was kept quiet. Every newspaper was notified before the President started that no publicity was to be given of the trip until the President authorized a statement. As a result the President traveled from plant to plant without local interference; saw what we wanted to see; talked with people whom he wanted to meet; and at every plant even the workers did not know of his coming until the President appeared for the inspection. It was a fine compliment to the newspapers that the President made this long trip without the slightest word appearing in print regarding the trip. Most Americans thought he was in Washington all this while. This is a thought for the Third Annual Newspaper Week: The newspapers of America are keeping faith with our government, and are doing everything within their power to further the war work.

Every business man wonders what is going to happen to him. The war is bringing about conditions the like of which this nation has never seen. Winning the war is the most important thing that confronts the nation, and every citizen is anxious to do his part toward winning the

OUR DEMOCRACY—by Mat

WHAT WE ARE FIGHTING FOR.

war. The business man scratches his head and wonders as item after item in his stock is frozen, and hundreds of items are entirely eliminated from the market. With more money in the country right now than ever before, it would be the time for a rich harvest for business if war time restrictions were not so severe. That is just the reason for the anti-inflation bill, to hold the nation in check and to head off a wild spending spree while the nation is in the most deadly and most expensive war of its history. After the war is over will be plenty of time for wild spending—if we have anything left to spend.

The President announced after his long swing across the continent that the nation was awake to the necessities of war. He is now trying to wake up Washington to the job ahead. There are too many brass hats in Washington; too many laws under which they operate; too many social frills; too many people wasting money in war time or peace time ideas; too much government; too many heads of departments and underlings giving out interviews on vital questions which upset the people of the nation; too many blocs trying to get advantage of the war situation. Please do not misunderstand this as griping about the conduct of the war, but are merely points on which the President could strengthen his administration.

Hitler did some more ranting the other day in presenting his alibi to the German people. He made no promises, except that there must be much sacrifice. He sympathized with conquered people because there was not enough food for them. Naturally the German people will get the pick of the food and if there is anything left the conquered peoples may try to exist upon it. Hitler did not promise to crush Russia this year, which is pretty near to saying that Russia may not be crushed at all. In the meanwhile, the Germans are systematically starving the people of the overrun nations so they will have no strength with which to rebel when the tide of battle starts flowing against the Germans.

Five important constitutional amendments will be submitted to the voters in the November election. Every qualified voter in Randall county should go to the polls and vote on these measures. Naturally there will be no challenge to

If you have not brought in your scrap metal or scrap rubber; or if you know where there is metal which has not been transported to market, be a patriotic citizen and report this fact to the County Committee. Picking up scrap metal is not a glamorous job; it is not to be compared with flying a plane; guiding a ship; firing a machine gun; or driving a tank through the enemy territory. But as matters now stand we will not have planes, ships, guns and tanks unless all of us turn in our scrap metal and rubber to manufacture these munitions. This is the job at which all of our citizens can work, and work hard. Let's do a good job, and do it quickly.

This Fire Prevention Week in Texas. Right now, at the beginning of winter, is the time for each and every citizen to give some serious thought to his property. Chances are that if your home burned tonight, you could not collect all of the insurance to which you are entitled. Very few people have a full and accurate invoice of their household goods. Not many people make a systematic inspection of their property in order to eliminate fire hazards. This annual Fire Prevention Week would be a good time to do a lot of things which all of us know we should have done months ago.

President Roosevelt again whipped Congress into line and secured the kind of anti-inflation law which he sought. Under this law, wages are frozen at the highest level. This provision was dominated by organized labor, which is getting all that it asks for from the administration. Salaried people are the hardest hit by this bill. Those who are not in war work will have less on which to live since the cost of living has greatly advanced in spite of Leon Henderson.

You will recall that Chas. Lindbergh said just two years ago that there would not be a general election in 1942 if Roosevelt was re-elected. You will recall many of his other foolish statements. Lindbergh has proven to be the worst

political prophet that this country has ever seen.

The war situation is getting better in the Pacific. The Japs are taking a beating in China, and now that the United Nations are organized for action, the situation looks promising.

Why your own car's Zero Hour comes at 00 miles an hour

ON THE OFFENSIVE you've got to be on the instant. Eager fighters, frisky jeeps, and all that's going along, must get going together—exactly at Zero Hour. But on the home front these brisk mornings, will your own precious car and its engine lubrication get going together—without deadly oiling delay? You can be sure as shootin', with your engine OIL-PLATED for Winter by Conoco Nth motor oil... oil that OIL-PLATES!

Even while the speedometer snoozes at 00 miles an hour—and you're still snug in your "kivers"—the chilly insides of your OIL-PLATED engine will already be coated by lubricant. Protective OIL-PLATING is really sort of "magnetized" to piston rings, bearings, and straight up the cylinders, by Conoco Nth oil's strong "power of attraction"—created by an added modern synthetic. This keeps the OIL-PLATING from all draining down to the crankcase overnight—over week-ends—and longer.

No complete lack of lubrication then, at 00 miles an hour—starting up cold. No long needless risk till cold oil comes inching along through passages as slim as spaghetti.

You're off safely, because OIL-PLATING safely stays on—ready to lubricate before any oil can circulate.

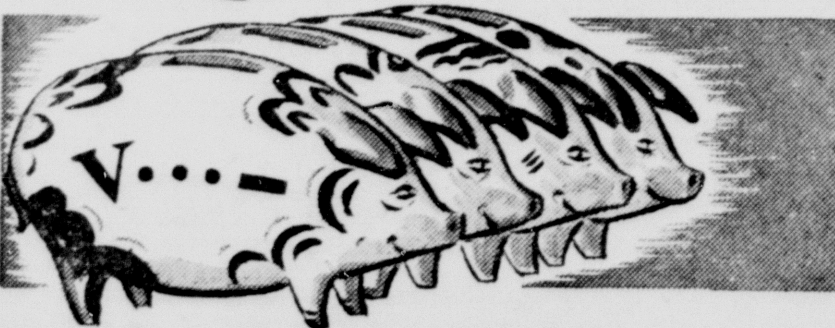

This season don't merely change oil. It's fully as simple and inexpensive to change to an OIL-PLATED engine. Just change to patented Conoco Nth oil at Your Mileage Merchant's Conoco station. Continental Oil Co.

Bufs Play Friday

(Continued from page one)

ponents and more interesting for fans, the pilots handle the ball exceptionally well and have great passing. Laterals were handled faultlessly by them last week as they defeated the Lubbock air base, 12 to 0. The pilots are coached by Ted Shipkey, former New Mexico U. mentor who long has been noted for gridiron hocus pocus. He has college stars at every position had some former pros in addition. His fans already are talking about the likelihood of an undefeated season.

"If you want to see a wild, thrilling game, come out Friday night," said Coach Nicklaus. "These boys run plays you have never seen at Buffalo Stadium."

At El Paso, Nicklaus saw Texas Mines beat the University of New Mexico by a single touchdown on a muddy field. The lads trained last spring by Jack Curtis, former Buffalo coach, showed much power and a defense which, on the slow field, stopped the New Mexico razzle-dance.

Conceding his alarm, Nicklaus called for a week of intensive training to prepare for the very capable Albuquerque pilots. He was only partly reassured by the Bufs' 28-0 victory over Arizona State of Tempe in his absence. He and Ben Collins, who made the trip and saw McMurry College beat the New Mexico Aggies 12 to 0, see only major obstacles ahead for the locals.

Mother (to her small daughter, saying prayers): "A little louder please. I can't hear you."
Daughter: "Yes, mother, but I'm not speaking to you."

Excited Depositor (with counterfeited bill): "You mean to tell me this money is worthless?"
Cashier: "Not exactly. It was worth \$10 to the man who gave it to you."

Judge: "Now, tell me about your martial relations. Were they pleasant?"
Witness: "Pleasant enough, your honor, but they wanted to live on me all the time."

"Yes, my wife and I agreed one month ago that in married life frankness is the best policy. We resolved to point out one another's faults without reserve, so we could correct them."
"And have you stuck to it?"
"Not exactly; we haven't been speaking for 29 days."

The English traits of reserve and understatement sometimes combine to produce rare results.
"I hear you buried your wife last week," another member observed sympathetically to Lord Chumley at his club.
"Had to," he replied. "Dead, you know."

Talk on Brazil Is Given Tuesday at Rotary Luncheon

Dr. H. A. Zimmerman spoke at the Rotary Club luncheon Tuesday on Brazil, where he spent six years as a missionary. He is here holding a meeting at the Baptist Church.

Dr. Roy Johnson introduced the speaker.

Brazil is as large as the United States, plus Alaska. There are several states larger than Texas. 75% of the population live along the Atlantic Ocean, as the people are not inclined to pioneer. All of the nation is east of the United States, and is nearer New York City than New Orleans.

Every third cup of coffee used in the United States comes from Brazil. 51% of the nation's income is from coffee. Other products are cotton, sugar and cattle.

Up to 1930 there was slavery in the nation. There is a decided amalgamation of races. Only in the southern states is a pure white race, mostly of German descent. There are many Italians, who hold aloof from the government.

The constitution of Brazil is a copy of that of the United States. In the revolution of 1930, President Vargas seized the government. He is liberal in religion and politics, and 100% in the war. The Germans and Japanese present a real problem to his government.

The missionaries have done a splendid job in cultivating goodwill. While the nation is about 70% illiterate, American educational methods are accepted and are rapidly reducing the percentage of illiteracy.

The relations of Brazil and the United States are very friendly. Because we have not bought Argentine cattle and wheat is the cause of difficulty with that nation.

Brazil has had compulsory military training. The nation is not mechanically minded, therefore the army is small and not well equipped.

Dr. Zimmerman believes that the population could be quadrupled because of the undeveloped resources.

Visitors were: W. W. Rusk, president of the Amarillo Rotary Club, Ed Broome of Amarillo, Frank Kelley of Panhandle.

What's Cookin', Mrs. Uncle Sam?

VITAMINS and MINERALS and NUTRITION
All Rolled Up Into Delicious Meat

Ours is a grand glorious heritage. It is a country of free speech and unravaged hillsides and good health and juke boxes and dreams that can come true! It's America . . . with all its strength and faith and wisdom. But America needs Americans who can preserve its reputation, who can keep it a democracy where people live their own lives and where the rule is not a rule of force. Those same Americans must be healthy and strong so that they can work and fight to keep those good things when they are threatened. So it has become a duty and a pleasure to follow the rules which keep a nation alive and vital and full of HEALTH! Food is important. Meat, containing vitamins and minerals, is important, too. Buy good meat, meat that is guaranteed fresh and pure—part of the nutritional program that is so essential to Uncle Sam. Get it at our store.

We still think Joe Ziegler did a wonderful job on the cartoon of The Eagle's Eye, although there has been some remark about the brand of tobacco being too odorous.

Some of these unfortunate students who always end up on the wrong side of "penny matching" wonder if their competitors' coins aren't "two-faced."

Possibly a better way to invest these Lincoln portraits would be to help turn the "Axis-grinder" by buying more of the War Stamps which are now on sale in Canyon High. It's the only way you can't lose.

Why are so many of us so sleepy in the classroom and so wide-awake at night?

Last week when Superintendent J. B. Speer asked those in assembly with brothers or other close kin in the armed services to stand, practically all the student body responded.

Letters to these boys—at least one a week—would be very encouraging, and a lot more patriotic than cartoons of the teachers.

It seems strange that the night falls but the day breaks.

It is not uncommon to see a salesman "cry" his wares, but when a buyer seems so anxious to purchase a product, it becomes evident that he needs it desperately.

Uncle Sam is needing something that badly—scrap iron. Every ounce, which in itself doesn't seem so much, counts a lot. One of these small pieces of metal may be the hair that broke the camel's back.

The quota for each student is 20 pounds, and no one should rest until that amount has been turned in.

It seems that the driver who most consistently runs into "bad drivers" lacks superfluous talent in the manipulation of an automobile himself. A coincidence?

Where'd this come from:
Roses are red;
Violets are blue;
The Japs are yellow—
All the way through.

Speer Introduces New Teachers

Enlarging the Canyon Public School faculty are the following members: first row, Miss Sarah Thompson, third grade; Miss Mildred Cole, aeronautics; Miss Mary Roberts, music; Miss Rhita Jean

Sullivan, homemaking. Second row: Miss Florence McMurry, fourth grade; Mrs. A. K. Goodman, language arts; Mrs. J. W. Kleinschmidt, library; and Mrs. C. E. McDonald, commercial arts.

Speer Announces Scrap Iron Drive Friday in First School Assembly

"Uncle Sam is asking the schools to salvage scrap iron for the nationwide campaign, but he is willing to pay \$8 a ton for it," announced Superintendent J. B. Speer in the first high school assembly Friday morning.

Large-scale cooperation began October 5 when the different organizations went into competition against each other for the most tonnage. Another cooperative Defense project, the sale of War Bonds and Stamps, is scheduled to begin this week.

After Miss Mary Roberts led the singing of four patriotic songs, Mr. Speer introduced the four teachers left from last year, Miss Grace Clark, Miss Helen Whiteside, Mrs. Guy B. Tabor and Milton Sanders.

The new teachers, Mrs. J. W. Kleinschmidt, Mrs. James Jennings, Mrs. C. E. McDonald, Miss Rhita Jean Sullivan, Miss Mildred Cole, Miss Roberts and Mrs. Fred Scott, substitute were greeted with applause by the assembly.

Just before having the students sing the school song as the concluding number, Mr. Speer commended the students on the fine spirit in which they began school, and said, "We're going to have a good school even though we're operating under chaotic conditions."

Faculty Receives High Distinction

Congratulations to the Canyon High School faculty have been received from B. B. Cobb, secretary of the Texas State Teachers Association, who reports that a 100 per cent membership in the T. S. T. A. has been attained.

"This high membership is evidence of a fine professional spirit among the members of your faculty. The loyalty and support of you and your teachers make us, of the headquarters office, even more eager to do our full duty in helping the association to become a more effective agency for school progress in Texas," stated Mr. Cobb in his letter to Superintendent J. B. Speer.

Foster Volunteers Contest Awards

In need of some spare cash? Then enter the fire prevention theme contest sponsored by Hosea Foster, who will award \$15 in War Stamps to the three Canyon High School students that submit the best illustrative posters or the most ideal themes. The first prize winner will be entitled to \$7.50, second to \$5 and the third to \$2.50.

According to Mrs. Guy B. Tabor, the eighth, tenth and twelfth graders are required to write themes or make posters, but any other class representatives may enter into the competition if he enters before October 14.

Canyon High Has New Employees

Substitute Teachers Fill Vacancy in High School

Three new additions to the pay roll of Canyon Public Schools have been made in the last week.

Mrs. C. E. McDonald, who holds her Bachelor of Science degree from West Texas State College, has been teaching at Fort Sumner, N. M. She is teaching both history and commercial subjects.

The new grade school teacher is Mrs. A. K. Goodman, who will act as reading instructor in the intermediate department.

I. H. Hollabaugh replaces Cecil Bosley as custodian in the high school building.

Mrs. E. L. Braudt, Mrs. Fred Scott and Mrs. R. E. Ball substituted last week in the position soon to be occupied by Miss Mary Lou Hawkins from Memphis.

Mrs. Wayne Thoss, formerly Mrs. K. E. Tilton and librarian of Canyon High School, has announced her marriage to Wayne Thoss of Kingsville, Texas.

Mrs. Thoss plans to continue her teaching there as Mr. Toss is in the Naval Reserve.

Class Officers Accept Leadership Reins

FHT Girls Hold First Meeting

Sullivan and Dowd Name Leaders for Next Year

For the purpose of electing officers and organizing for the coming year, the Future Homemakers of Texas held their first meeting of the season, Friday at noon with Martha Jean Dowd, former president, presiding.

Those elected for the various offices are Georgia Faye Holt, president; Ellen Sanders, vice-president; Martha Hannah Hammond, corresponding secretary; Margaret Lair, recording secretary; Vergie Ruth Haines, chairman of the yearbook committee; Carolyn Black, chairman of nutrition committee.

Mary Alice Campfield, social service chairman; Polly Winstead, social chairman; Martha Jean Dowd, reporter; Shirley Harrell, song leader; and Anita Davis, pianist.

A committee with Carolyn Black as its chairman was appointed to meet with Superintendent J. B. Speer to find a definite time for the regular F. H. T. meetings.

The club voted to send dues to Austin where they will be affiliated in the state homemaking club. This affiliation will entitle the chapter to receive the monthly newsletter and to vote at state meetings.

According to Miss Rhita Sullivan, sponsor, the next meeting will be a formal initiation ceremony where all the new members will be informed of the standards and ideals of the Canyon chapter.

"It will be difficult for the various activities to be carried out because of the transportation problems, but we still want to have a good F. H. T. club. All indications point toward this, for the girls showed much enthusiasm at our first meeting," stated Miss Sullivan.

Kaleidoscope Invades Chemistry Property

Red, white and blue! Because of the shortage of rubberized fabric used in making chemistry aprons, Miss Helen Whiteside said Friday "that Chemistry students may make their own." Even she was amazed at the result.

More than half the class turned up with bright red oilcloth aprons. Most of the others appeared with shining aprons of white, blue, tan or black. To add to the general confusion, a few students exhibited aprons with bright designs composed of a large number of colors.

Miss Whiteside maintains that the chemistry department is the most colorful department in Canyon High School. To date no one has contested her assertion.

According to Miss Whiteside, Hitler and Company is not only to blame for the shortage of rubber aprons, but also for a shortage of a number of essential chemicals.

FFA Boys Wreck Combines For National Scrap Drive

Cooperating with the nationwide salvage campaign, the Future Farmers of America are tearing down a number of combines for a Canyon hardware company. The firm will keep all usable parts and give the scrap to the agriculture boys.

"Although we may not realize much profit, the boys will gain valuable experience," stated Milton Morris, instructor.

Help Keep Canyon Clean!

Uncle Wants Scrap; Canvass Ev' thing

What, another canvass? First it was for aluminum, next rubber and now it is JUNK! Why the patriotic families have canvassed their homes so many times that they can actually find things now.

Mothers, this is your golden opportunity because all the years that you have tried to throw away old skates, cars and toys, battered beyond use, but just could not because of the memories they hold—you can now forget.

Sonny and Sister will be proud to give or sell their prized junk to Uncle Sam to be used in making war supplies, because their future must be insured. However, they need not give this necessity, for the United States is willing to pay \$8 a ton—just for the junk.

The schools all over the country have entered into this campaign which is to last from October 5 to 17 and the Canyon Public Schools are doing their bit. Students will bring their junk to school to have it weighed, if they want to donate the money to their class funds. Thus the junk will serve two purposes—to help the country and the class.

So don't forget your junk, we need it!

Roberts Directs School Chorus

Canyon High Band Begins Work on Patriotic Airs

For the first time in approximately five years, the students of Canyon High School will hear 50 melodious voices every Tuesday and Thursday morning between 9 and 10 o'clock.

"We will sing patriotic, popular, semi-classical and classical numbers," said Miss Mary Roberts, director. "Among the individual groups will be a girls' double trio and a boys' quartet. The chorus will make public appearances as soon as possible," she added.

Miss Roberts also plans to direct the band in national airs as well as the old repertoire of marches and overtures.

Tabor Aids Journalism Class After Substitute Sponsors

For the first time this year the Eagle's Tale has acquired a permanent sponsor. Mrs. Guy B. Tabor has come to the aid of the journalistic staff.

Introducing the mysteries of journalism to the new reporters, Mrs. R. E. Ball, the first sponsor this year, was assisted by the senior journalists. When Mrs. Ball accepted a new position, The Eagle's Tale obtained Mrs. Fred Scott who sponsored the journalists for one day before the schedule was changed making it necessary for her to discontinue her services. Mrs. Tabor then came to the rescue of the despairing journalistic class, making it possible for them to continue their studies.

Texas annually produces enough eggs to give one to almost every person in the entire world.

Students Choose Class Sponsors

New Room Mothers Aid Sponsors with Duties

With much eagerness and zeal, officers, sponsors and room mothers for the six classes in Canyon High School accepted the responsibilities for a full year of fun and accomplishment Wednesday, September 30, when the first gatherings for the classes were held.

Mrs. Guy B. Tabor, who for four preceding years has sponsored the present seniors, will direct this class for its last high school year, while Louis Hinders will lead it as president.

Other officers chosen are Johnny Harter, vice-president; Martha Jean Dowd, secretary-treasurer; and Ermin Winningham, social chairman. Mrs. Ed Harrell, Mrs. H. G. Persons, Mrs. J. J. Wright and Mrs. W. C. Black will serve as room mothers.

Taylor Guides Juniors
Lindsey Taylor will guide the Junior Class, which has reserved Mrs. James Jennings as its sponsor. Charles SoRelle, vice-president; Billie Jane Bonfield, secretary; Molly Nan Ziegler, treasurer; and Betty Ann Simon, social chairman. Mrs. Ed Harrell, Mrs. H. G. Persons, Mrs. J. J. Wright and Mrs. W. C. Black will serve as room mothers.

The sophomores, headed by President Sandy Oliver, have not yet chosen a sponsor. They, however, introduced Harold Erwin, vice-president; Shirley Newberry, secretary-treasurer; Vergie Ruth Haines, program chairman; Ernest Frank, parliamentarian; and Billy Ray Crow, bouncer as their other class officers. Room mothers are Mrs. Sanford Black, Mrs. L. D. Winn, Mrs. Tom Lair and Mrs. J. F. Haines.

Freshmen Name Leaders
Sponsoring the freshmen will be Miss Rhita Sullivan as Fawn Rogers, president; Evelyn Garrison, vice-president; Shirley Harrison, secretary-treasurer; Thelma Ruth Turner, program chairman; and Royce Boyce, bouncer pilot the group. Serving as room mothers will be Mrs. Guy Harp and Mrs. E. I. Boyce.

The eighth graders present Betty Ann Miller, president; Geraldine Small, vice-president; and Ann Crawford, secretary as their yearly leadership staff with Mrs. W. L. Browning and Mrs. Tom Gooch, room mothers.

An executive group of Clifford Burtz, president; Max Bellah, vice-president; Joan Morton, secretary; Miss Helen Whiteside, sponsor; Mrs. Alfred Bellah and Mrs. C. O. Elkins, room mothers will lead the newest class in school, the seventh graders.

Teacher Calls Are Numerous

Women, Including Married Ones, Taking Work in Many New Positions

Although most Panhandle schools have been in session almost a month, calls for teachers continue to reach West Texas State at the rate of five to ten a day.

The teacher shortage in the grades is especially serious, and is growing as young women go into other work. For the first time in many years, employers of teachers must bid against numerous other businesses and professions.

Some subjects have been dropped, while others have been maintained only by exercise of extraordinary resourcefulness. Among the persons who have been pressed into service are bus drivers, trustees, housewives, and professional men who work on a part-time basis, especially in direction of sports. Young women are doing work formerly considered only as fit for men—including coaching, manual arts, and band directing. Women are teaching pre-flight aviation, mathematics and sciences, and boys' physical education. Some are superintendents and many are principals. Schools which formerly barred married women now have few who are not married.

New Opportunities

Many school authorities have come to the campus to hire undergraduates of any certification at all. Movements of teachers have been unusually brisk because of the possibility of advancement. While some superintendents have condemned this trend, others take the position that long-suffering teachers, notoriously underpaid, should take advantage of any possibilities for bettering their pay or getting better working conditions.

In her efforts to aid school officials in finding teachers, Mrs. T. V. Reeves of the college's teacher placement committee has written hundreds of personal letters to

former teachers and has furnished lists of persons granted certificates in recent years. These have resulted in the re-entry into teaching of many capable persons.

Mail Courses Available

Teachers whose certificates have expired and others who need better preparation are finding it possible to take work by correspondence while in service. These correspondence courses are offered in many fields. West Texas State is one of 79 American institutions approved by the War Department to offer correspondence work to soldiers and sailors.

Schools which must be closed for harvest periods are, it is feared, likely to suffer further losses in teacher personnel. Each draft call increases the openings into which teachers may go. The movement of future teachers into college for certification is not great enough to keep up with the decline. This is in sharp contrast to the pre-war trend, which showed an over-production of teachers under the certification laws and led to agitation for higher standards.

MAIL SOLDIERS' XMAS GIFTS BEFORE NOVEMBER 1.

READ THE RULES—The following rules, issued by the Postoffice Department in cooperation with the Army Postal Service of the War Department, apply to the mailing of Christmas parcels for members of our Armed Forces serving outside the continental limits of the United States.

TIME OF MAILING—Christmas parcels and greeting cards should be mailed during the period beginning October 1 and ending November 1, 1942, the earlier the better. Each package should be endorsed "Christmas Parcel." Special effort will be made for delivery in time for Christmas.

SIZE AND WEIGHT—Christmas parcels shall not exceed 11 pounds in weight, or 18 inches in length or 42 inches in length and girth combined. However, the public has been urged to cooperate by voluntarily restricting parcels to the size of an ordinary shoe box and the weight to six pounds.

USE CARE IN PREPARATION—Remembering the great distance this mail will be transported and the necessary storage and frequent handling, it is absolutely necessary that articles be packed in substantial boxes or containers and be covered with wrappings of sufficient strength to resist pressure of other mail. Each parcel is subject to censorship and delay may be minimized by securing covering to permit ready inspection of contents.

PROHIBITED MATTER—Intoxicants, inflammable materials, poisons or compositions likely to damage mails are unacceptable. No perishable matter should be included in parcels.

HOW TO ADDRESS PARCELS—Addresses must be legible. Parcels addressed to overseas Army personnel should show in addition to the full name and address of the sender, the name rank, Army serial number, branch of service, organization, A.P.O. number of the addressee and the postoffice through which parcels are to be routed. Units located within the continental United States may be addressed direct, using name, rank, organization and location.

POSTAGE MUST BE FULLY PREPAID—The rate on parcels of fourth-class matter (exceeding eight ounces) being the zone rate applicable from the postoffice where mailed to the postoffice in the care of which parcels are addressed.

GREETING MESSAGES PERMISSIBLE—Inscriptions such as "Merry Christmas", "Don't open until Christmas" and the like may be placed on the covering of the parcel if it does not interfere with the address. Cards may be enclosed and books may bear a simple dedicatory inscription.

INSURANCE AND REGISTRY—Gifts of value should be insured. Articles of small size and considerable value should be sealed and sent as first-class registered mail.

MONEY ORDERS—The Army Postal Service recommends use of postal money orders to transmit gifts of money to members of Armed Forces outside the United States. These are cashed at A.P.O. in local foreign currency at rate of exchange on date of presentation.

Military Group Sees 300 Men

Recruiting Mission Will Come in Three Weeks to Enlist Interested Males

After calling all college men to a special assembly last Wednesday morning at 9 o'clock, five representatives of the U. S. Reserve Forces explained their programs to nearly three hundred eager men.

Dean R. P. Jarrett, who was in charge of the meeting, introduced the officers.

Major A. W. Holt, of the U. S. Army, leader of the group, presented Lieut. Liman E. King, who explained the Navy's programs, V-1 for freshmen and sophomores and V-7 for junior and senior students between the ages of 17 and 27 who want to stay in school and become officer material. Lieut. King said that any student should take mathematics of all kinds, and physics. To upper classmen a degree of liberal arts or science would be of help. After completion of the sophomore year, a three-hour exam will be given and if the work has been satisfactory one may finish school. At any time, a member of V-1 or V-7 may transfer to V-5, the Navy flight program.

Naval Cadet Speaks

Next, Lieut. Ralph E. Binnion, a member of the U. S. Naval Flight Cadet Selection Board, explained flying in the Navy and the Marines. The Navy trains all Marine flyers.

Major Holt next encouraged men to get into his program the General Army Reserve. "No man in this reserve is likely to be called until he is at least 20½ years old but I believe one should try to get into the Army Air Corps Reserve if he can pass the rugged test."

Lieut. Carl C. Gregory, of the Army air corps Reserve, told men that there were two divisions of the air program: the Air Crew which

has the pilots and navigators, and the ground crew, which includes the Armament, Engineering, Meteorology, and Photography officers.

"The Marines have many branches but are divided into three main ones," said Lieut. James R. Harper. "They are the defense battalion, sea-going Marines, and the fleet force. Now the Marines require a college education for entrance but I do not know how long this will continue."

This joint program of explaining all the branches of the reserves was not for enlistment but only for explanation. Recruiting officers will be on the campus in about three weeks and will then enlist college men in the reserves.

An object in possession seldom retains the same charms which it had when it was longed for.—Pliny The Younger.

PUBLIC MILEAGE SNATCHER NO. 1 is not the thief who puts one car out of commission by stealing a tire.

Speed! That's the name of the Nation's tire thief.

Speed robs the heavy-footed driver of one-third to one-half of the essential mileage remaining in his irreplaceable tires.

Speed hastens the day when cars must be laid up because rubber is lacking . . . bringing almost fantastic dislocations in our economic life and in our ability to hold war production at maximum.

Remember that tires last only half as long at 55 miles an hour as at 35!

So today . . . right now, as you read this message . . . make a solemn promise to yourself: "Until we win

the war, I will never drive over 35."

Say it again, and let the words sink in: "Until we win the war, I will never drive over 35."

To help keep your car from becoming a "tire orphan", stop at the Orange and Black 66 Shield. That is where you get Phillips 66 Poly Gas, famous for pep and mileage, and Phillips 66 Motor Oil, 100% paraffin base.

And that is where the Phillips 66 Service Man is ready with a variety of services which make tires last longer and go farther. He checks inflation. Inspects and corrects cuts and bruises. Rotates tires from wheel to wheel. He helps you:

"That's right. If he had been gifted with second sight, he'd still be single."

New Kind of Treasure Hunt

Former Governor Al Smith of New York hunted up 150 pounds of metal in his office to add to the scrap collection drive. Most of it's office equipment, but some treasured souvenirs are included.

Wayside Items

Sunday was Rev. Menefee's regular day.

Miss Jessie Fisher, a missionary just back from India, gave an interesting talk at the church Sunday night. She also talked to the students one evening, on her voyage home which was very interesting.

Miss Jessie Fisher and Mrs. Luther Willis and little daughter have been visiting in the home of their brother, Lem Fisher, and family.

Mr. and Mrs. Joyce Lane of Fort Bliss arrived at the parental W. I. Lane home Sunday on furlough and will go back next Wednesday.

Word has been received of the death of John Fletcher Rogers of Los Angeles, Calif. He had been ill for a number of years and died Sept. 15. He formerly lived here, and taught school at Wayside and Fairview for a number of years. His wife assisted him part of the time. They are well known by the old timers. His father, L. B. Rogers, is buried in the Wayside Cemetery.

Mr. and Mrs. Henry Shipman have moved to the W. C. McGehee place where they have employment.

Mr. and Mrs. Chas. Kennedy and son, Robert, have moved to the J. E. McGehee place where they have employment.

Mr. and Mrs. J. M. Malone and son, Tom, visited over the week end in the John Stockett home. Their home is in Amarillo.

John Stockett has lately dug a trench silo.

Harvey Newsome and son, A. J., accompanied W. I. Lane to Amarillo Tuesday.

There will be a business meeting and devotional at the church Saturday evening.

Lions Club Hears Talk on Plane and Farm Production

Olin E. Hinkle talked at the Lions Club luncheon Thursday on "Plane and Farm Production." He showed pictures of the accomplishment of the United States.

Mr. Hinkle stressed the point of view that the war will be won by persistent production; that our production is gaining momentum; and that the places of strategic output must be maintained and kept at full pace.

New members taken into the club were: D. Oral Caywood, Industrial Arts Department of W. T.; W. F. Haggard, Business Administration Department; Spencer Whippo, Agricultural Department.

"How does Fred make love?" "Well, I'd call it unskilled labor."

EPISCOPAL CHURCH

Vesper worship will be conducted Sunday afternoon at 5 o'clock in the All Saints Church by the Rev. W. R. Scott, pastor.

This will be the 19th Sunday after Trinity.

All are welcome to the All Saints Church to join in Sunday worship.

Help Keep Canyon Clean!

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.
